

ROBOT INTERFACE ARCHETYPES

Entry and main states from the live localhost preview

MARKUP GUIDE

- 01 Add PDF comments or draw directly on a screenshot.
- 02 Refer to the screenshot ID, such as D02 or V03, in general notes.
- 03 Each state is captured at the same desktop viewport for direct comparison.
- 04 Entry states appear only when the app has a distinct initial screen.

16 STATES / 5 ARCHETYPES

State map

C

COMPACT UTILITY

C01 Text Extractor entry
C02 Index Creator entry + term field
C03 GREP Builder adapted compact
C04 Cover Splitter entry
C05 Prompt Extractor entry

D

DOCUMENT WORKSPACE

D01 Text Extractor main
D02 Index Creator main
D03 Prompt Extractor main
D04 Cover Splitter adapted main

V

VISUAL WORKBENCH

V01 Diagram Generator
V02 Graph Generator
V03 Barcode Generator

U

ADAPTED / UNIQUE

U01 Map Generator adapted workbench
U02 Cover Generator adapted workbench
U03 Solutions Importer unique workflow

L

LIBRARY

L01 Script Buffet

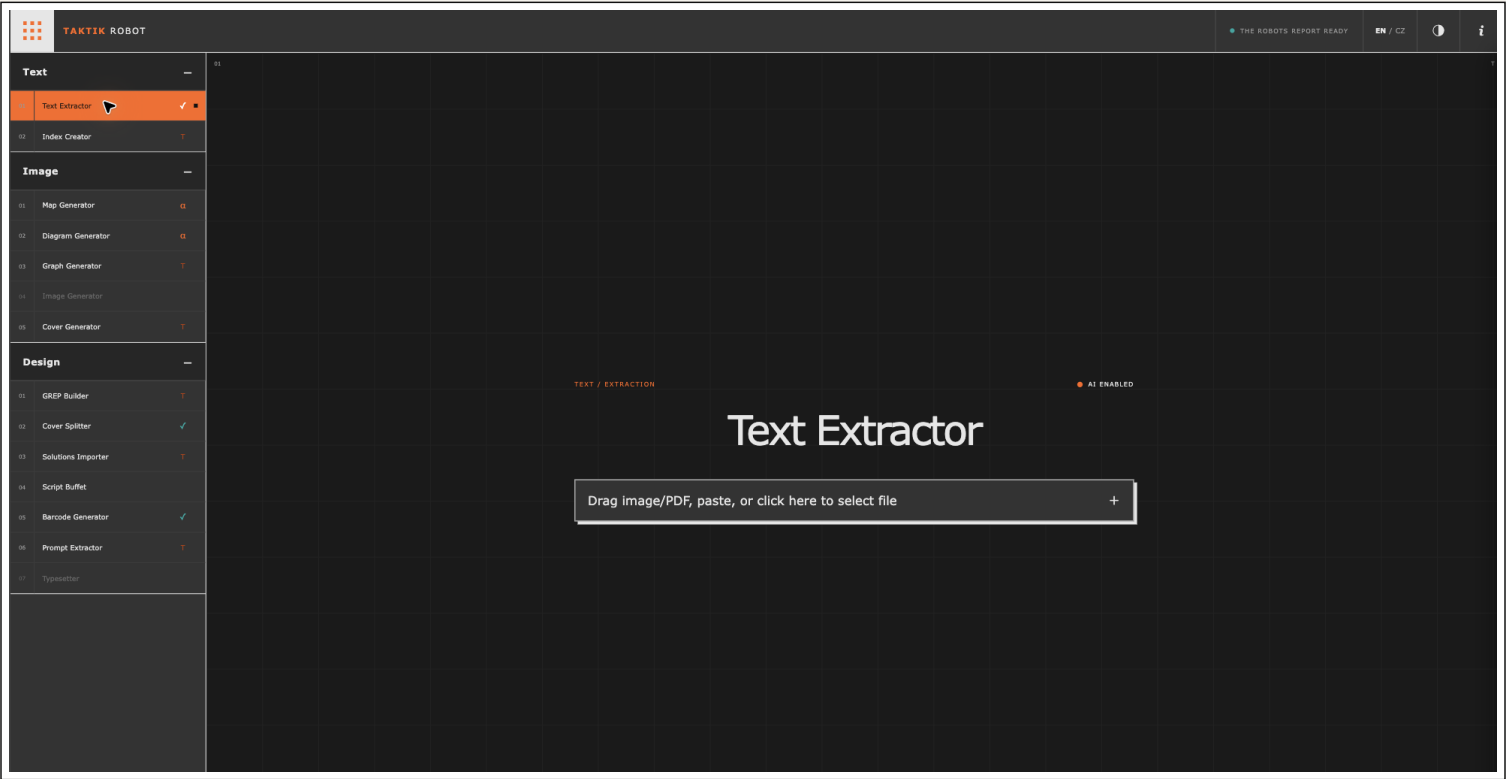

CLASSIFICATION NOTES

Cover Splitter enters as a compact utility, then becomes an adapted document workspace.

Script Buffet is a reusable asset library.

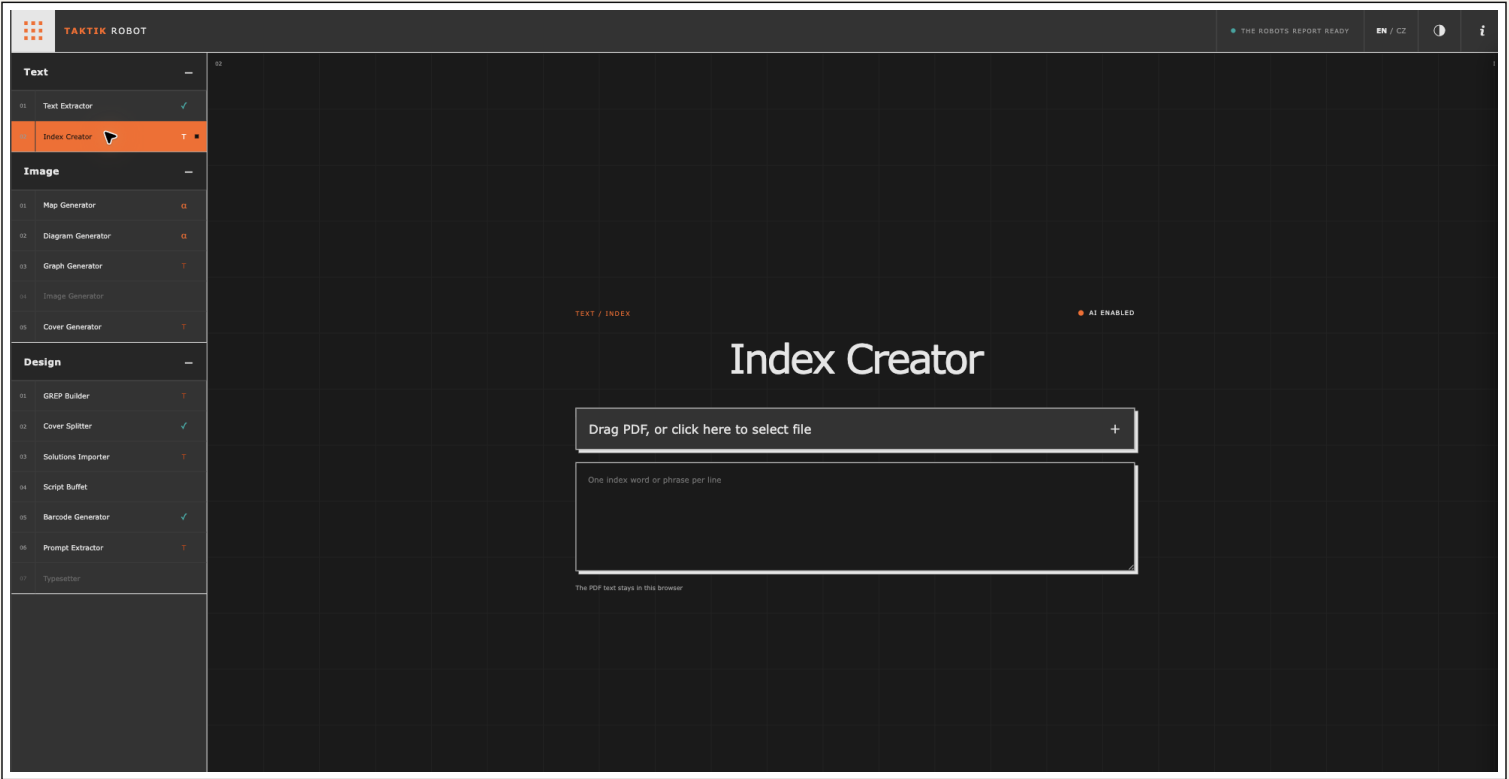

Map and Cover retain workbench vocabulary while using task-specific layouts.

Compact utility

C01 Text Extractor / entry

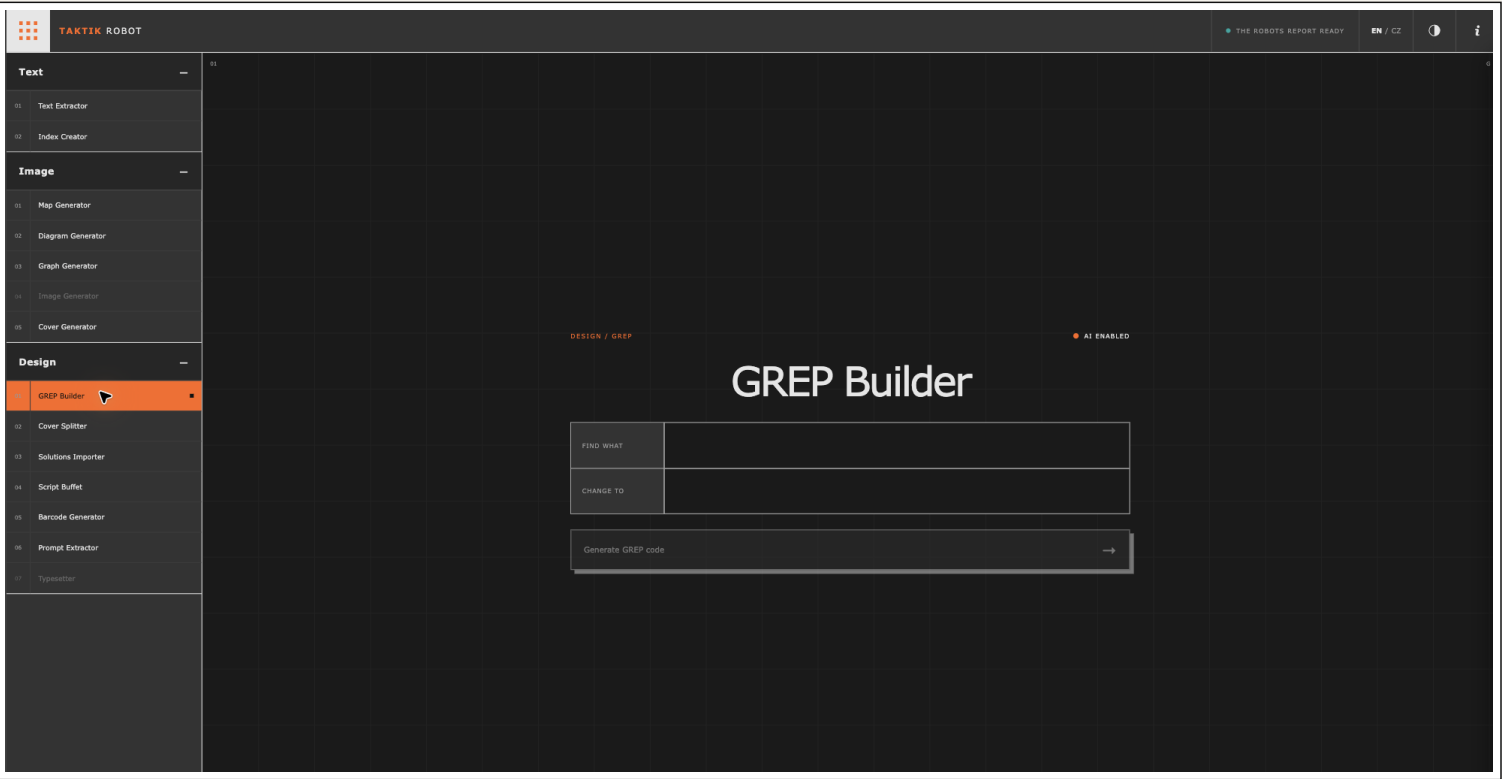

Shared compact upload state

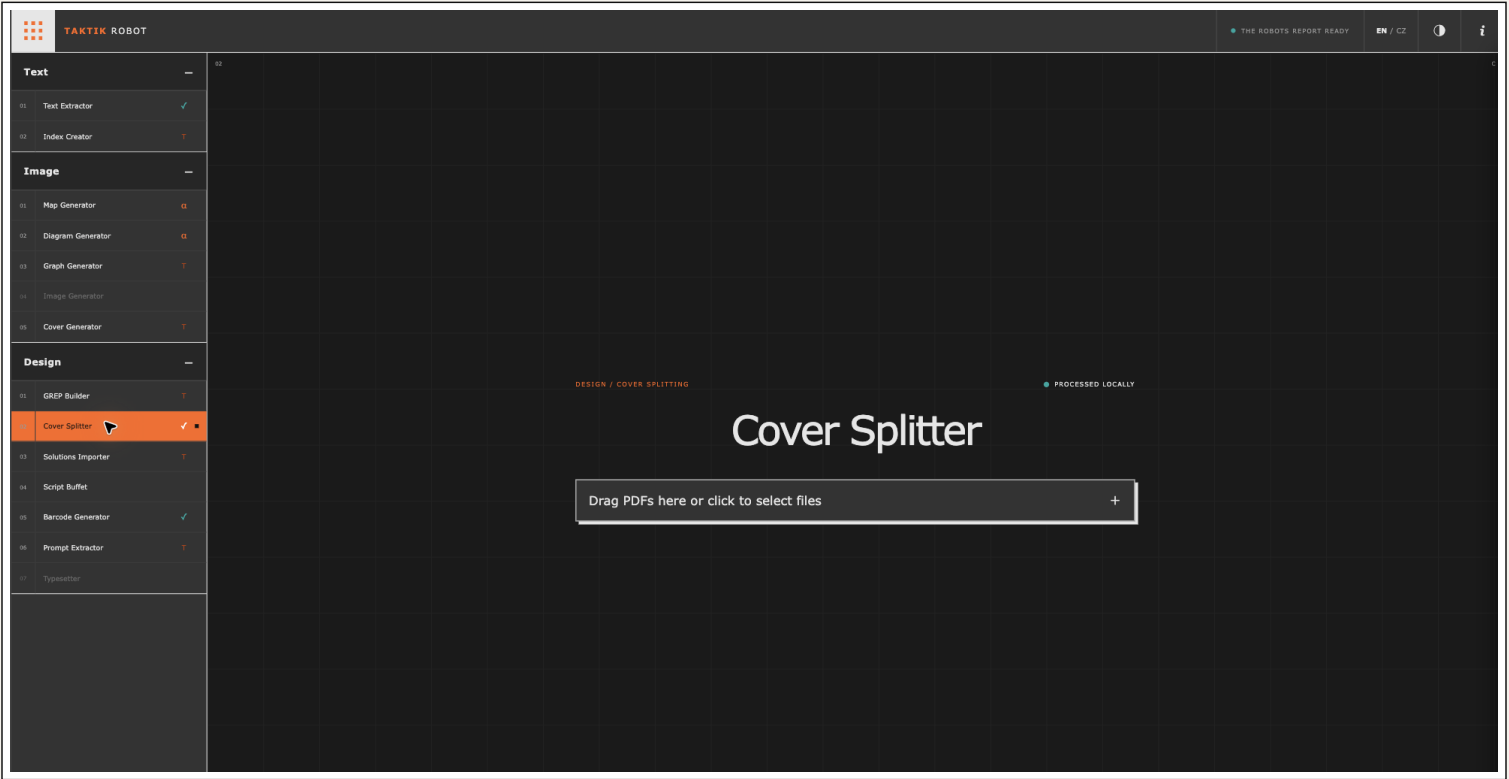

C02 Index Creator / entry

Compact state with an added term field

Compact utility

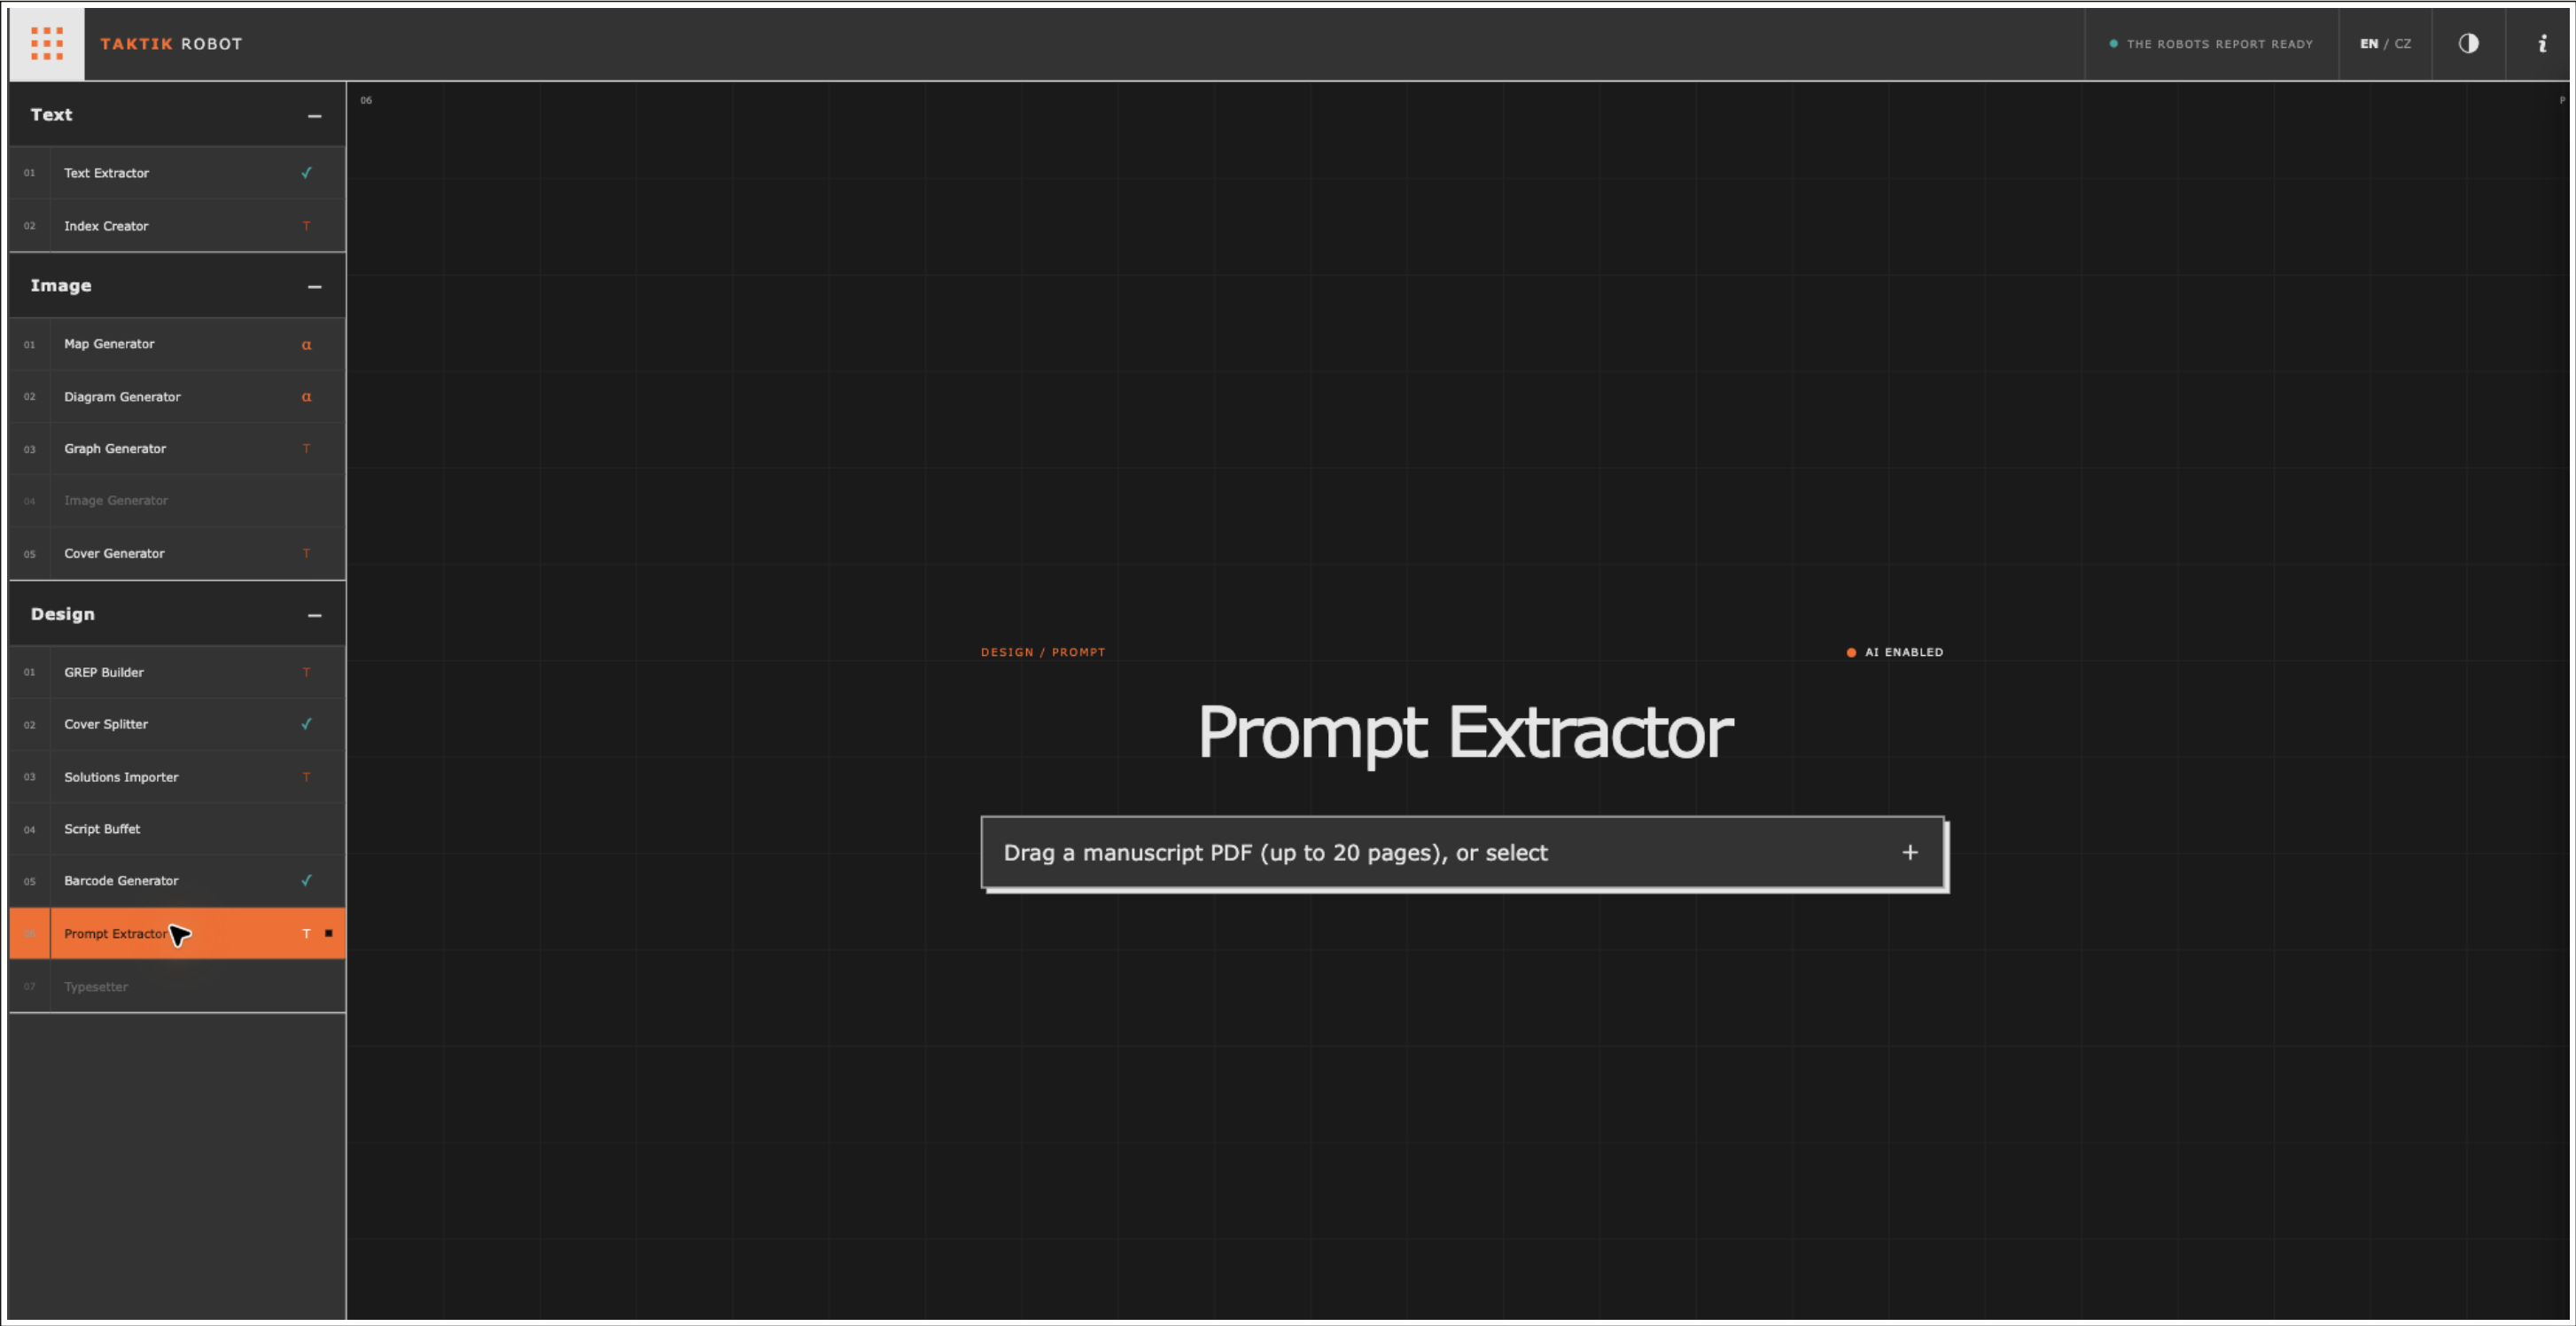

C03 GREP Builder / adapted compact
Persistent request and GREP result

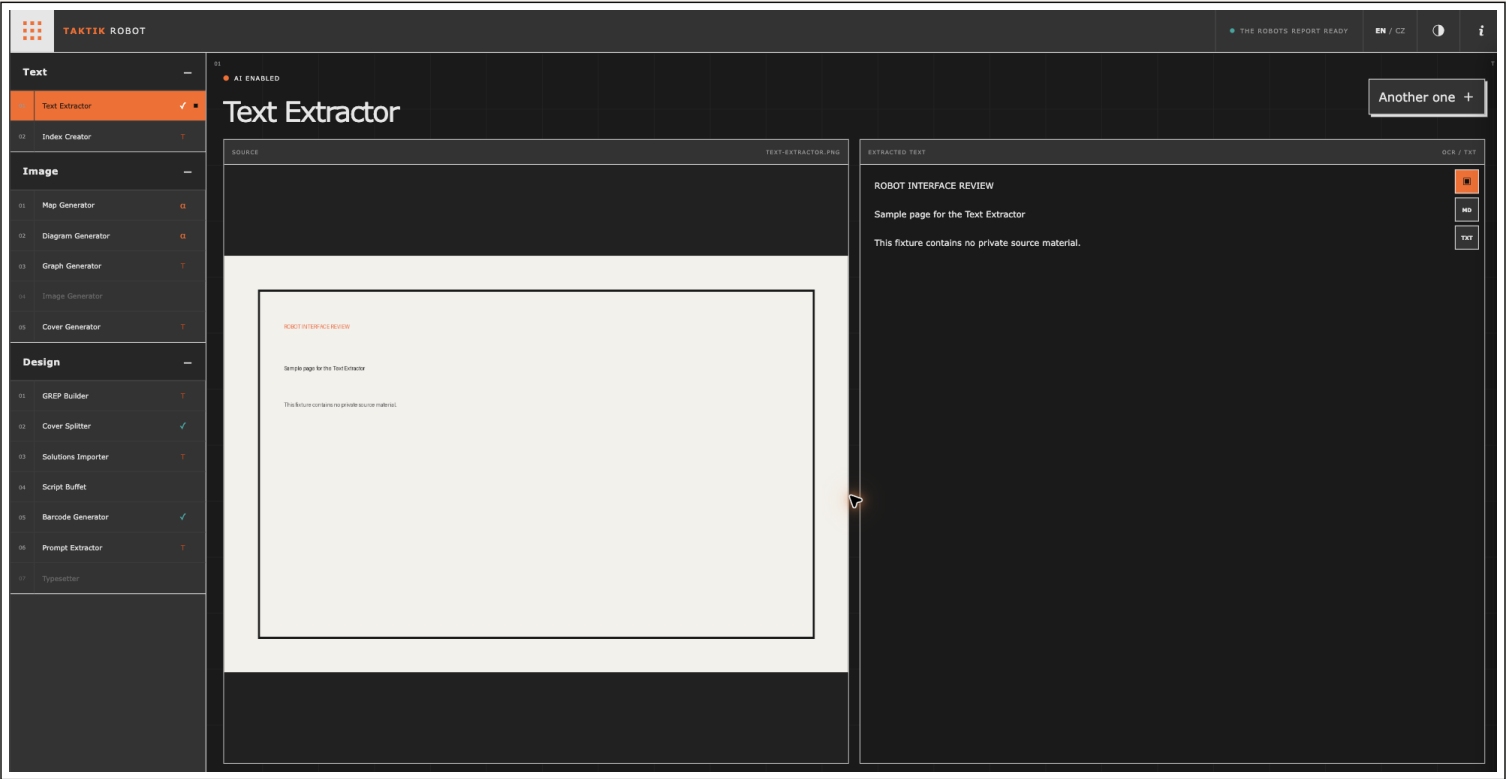

C04 Cover Splitter / entry
Shared compact upload state

Compact utility

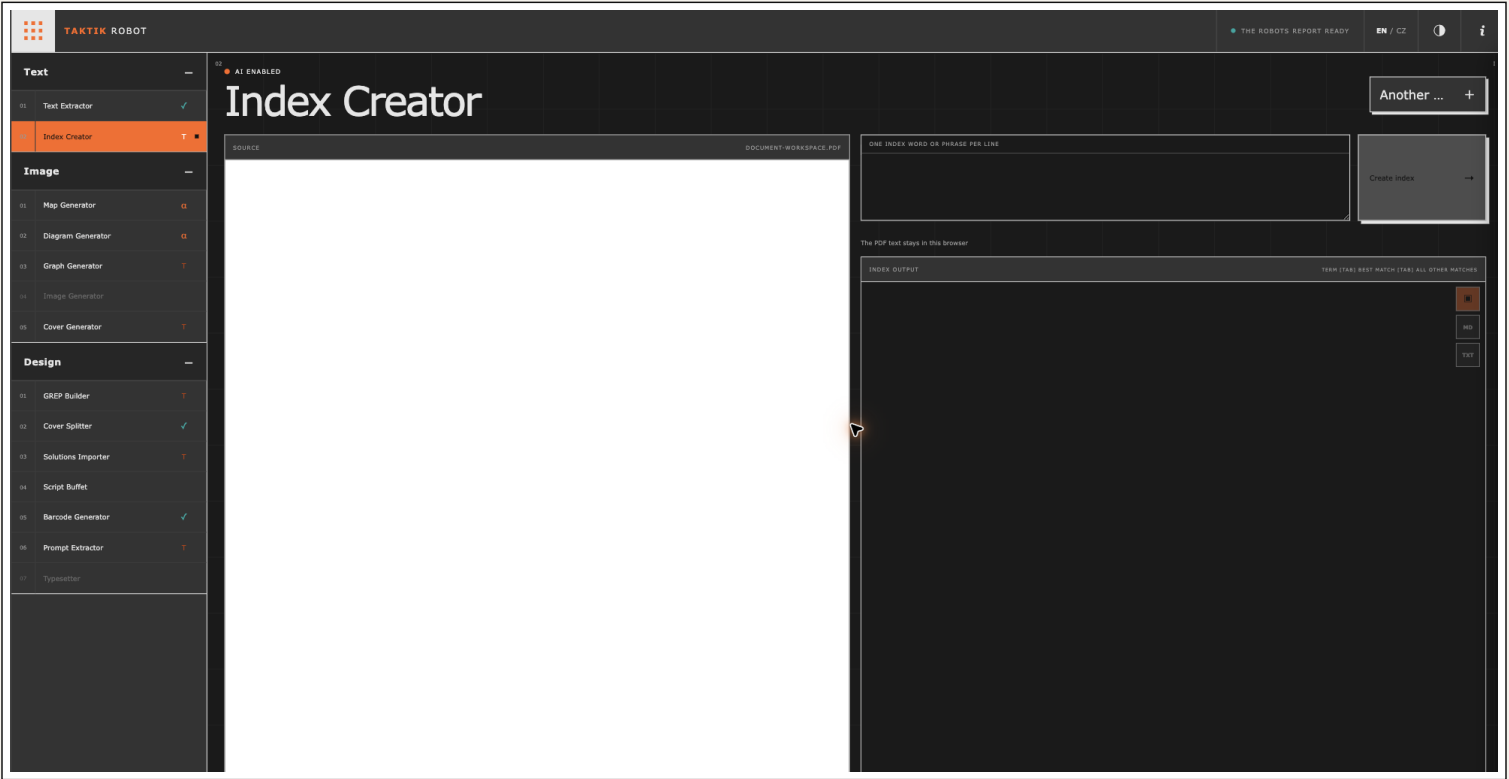

C05 Prompt Extractor / entry
Shared compact prompt state

Document workspace

D01 Text Extractor / main

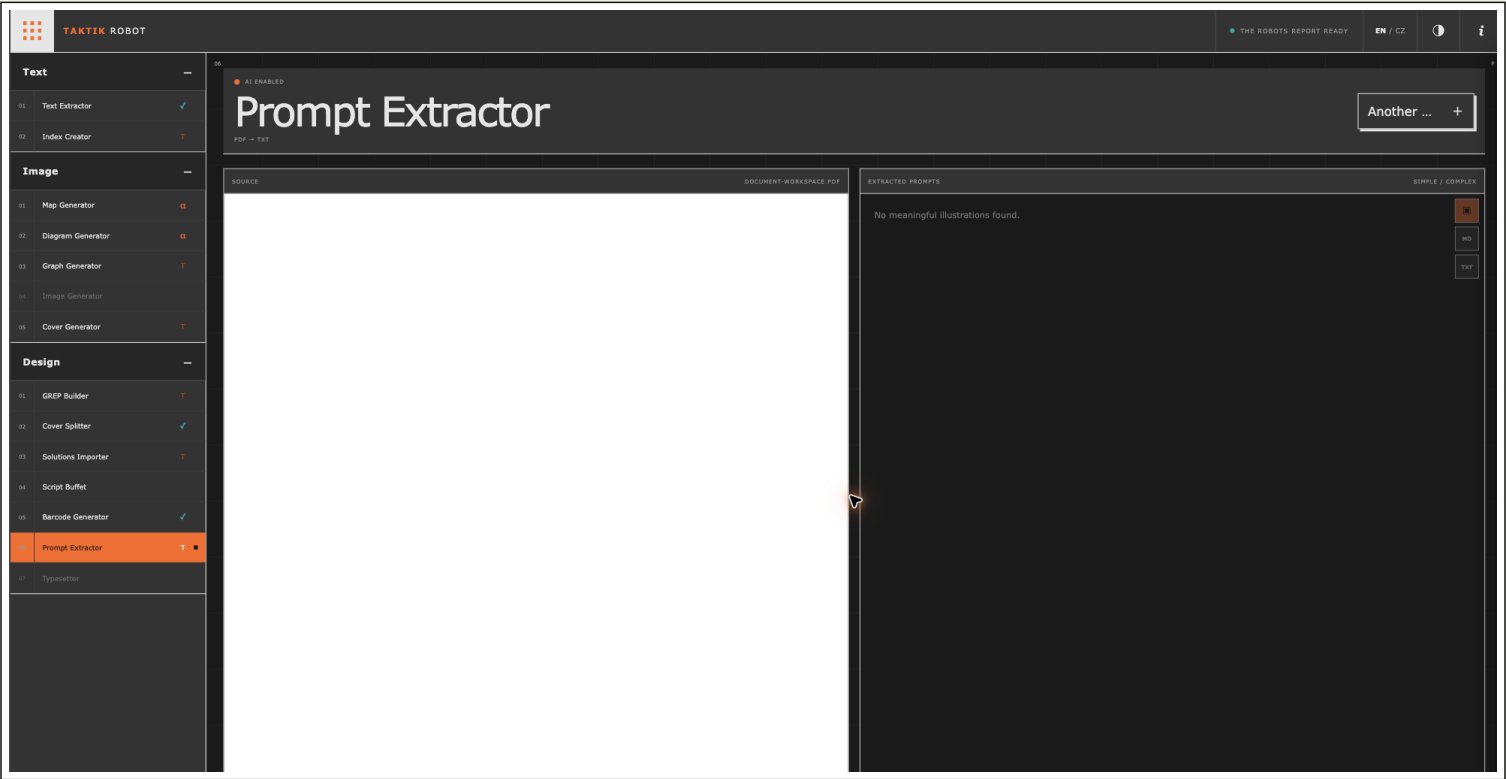

Source and extracted text split view

D02 Index Creator / main

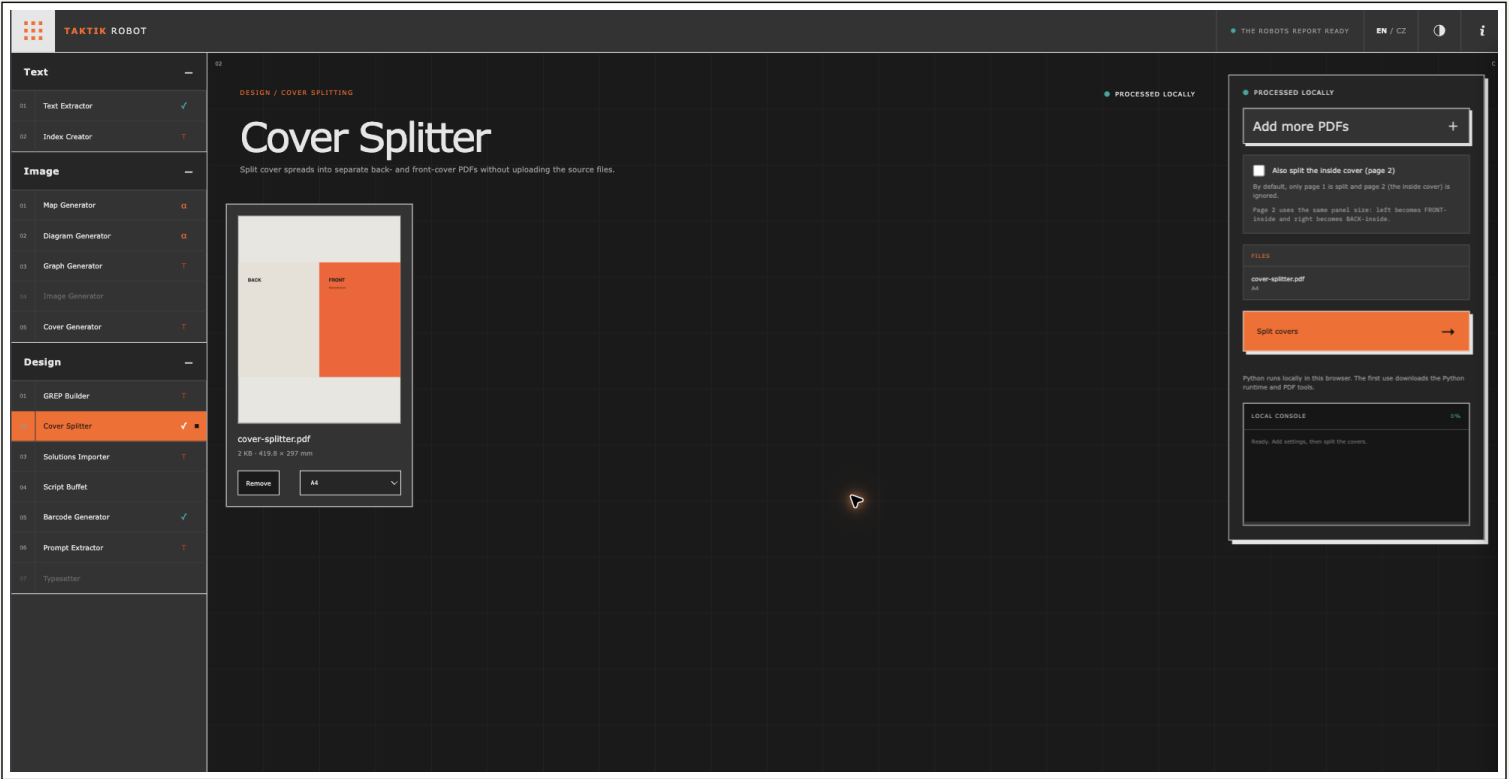

Source and generated index split view

Document workspace

D03 Prompt Extractor / main

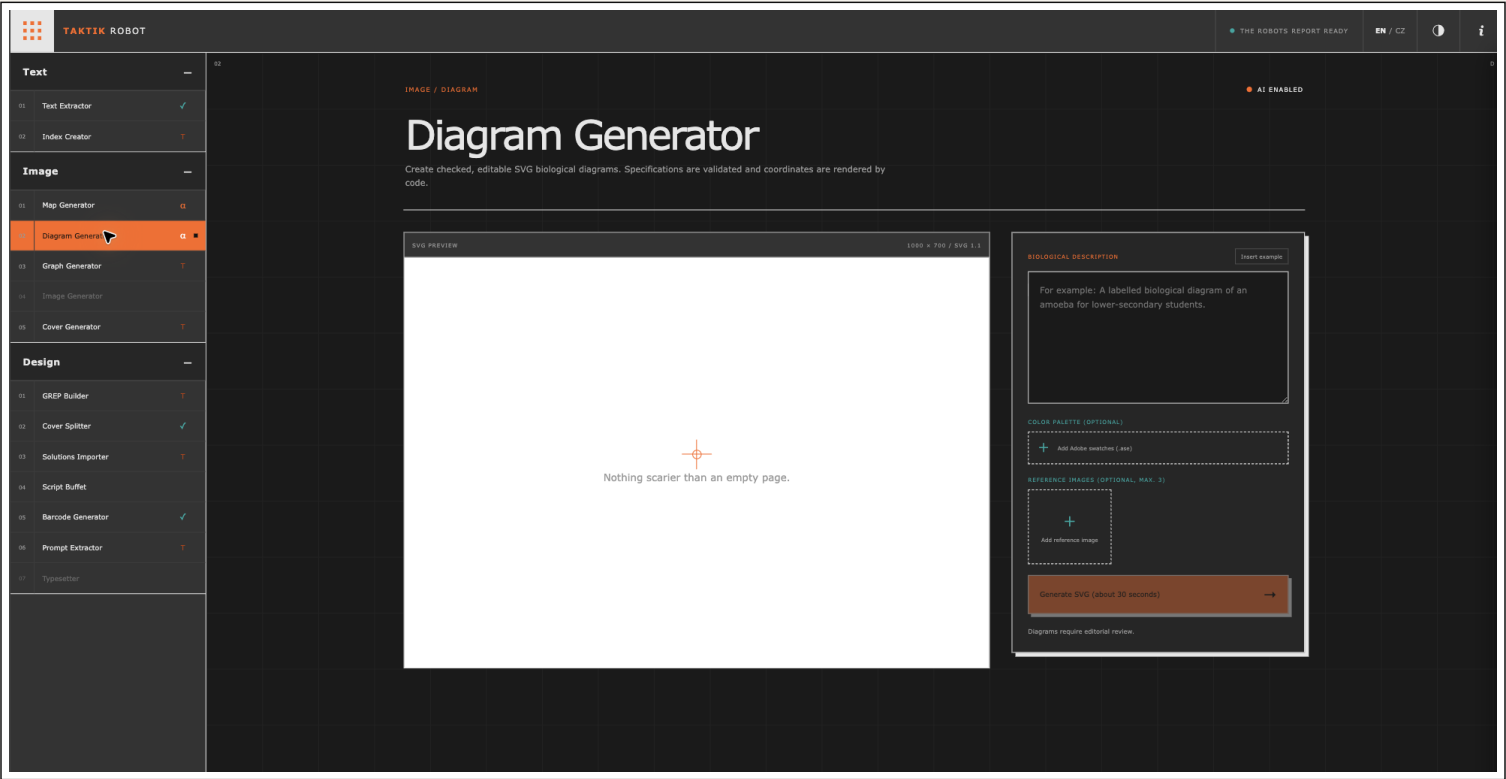

Source and extracted prompt split view

D04 Cover Splitter / adapted main

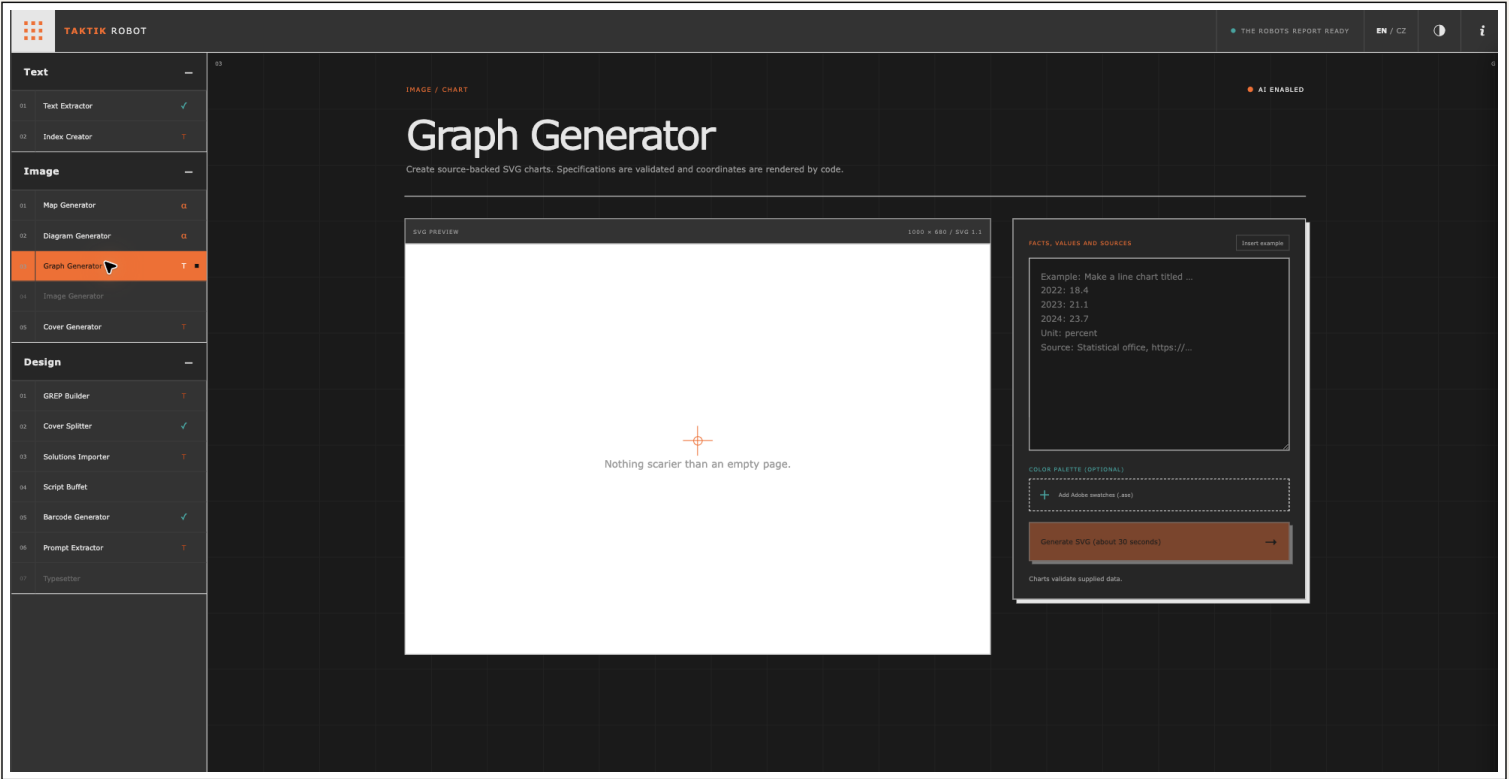

Document workspace adapted for multi-file output

Visual workbench

V01 Diagram Generator / main

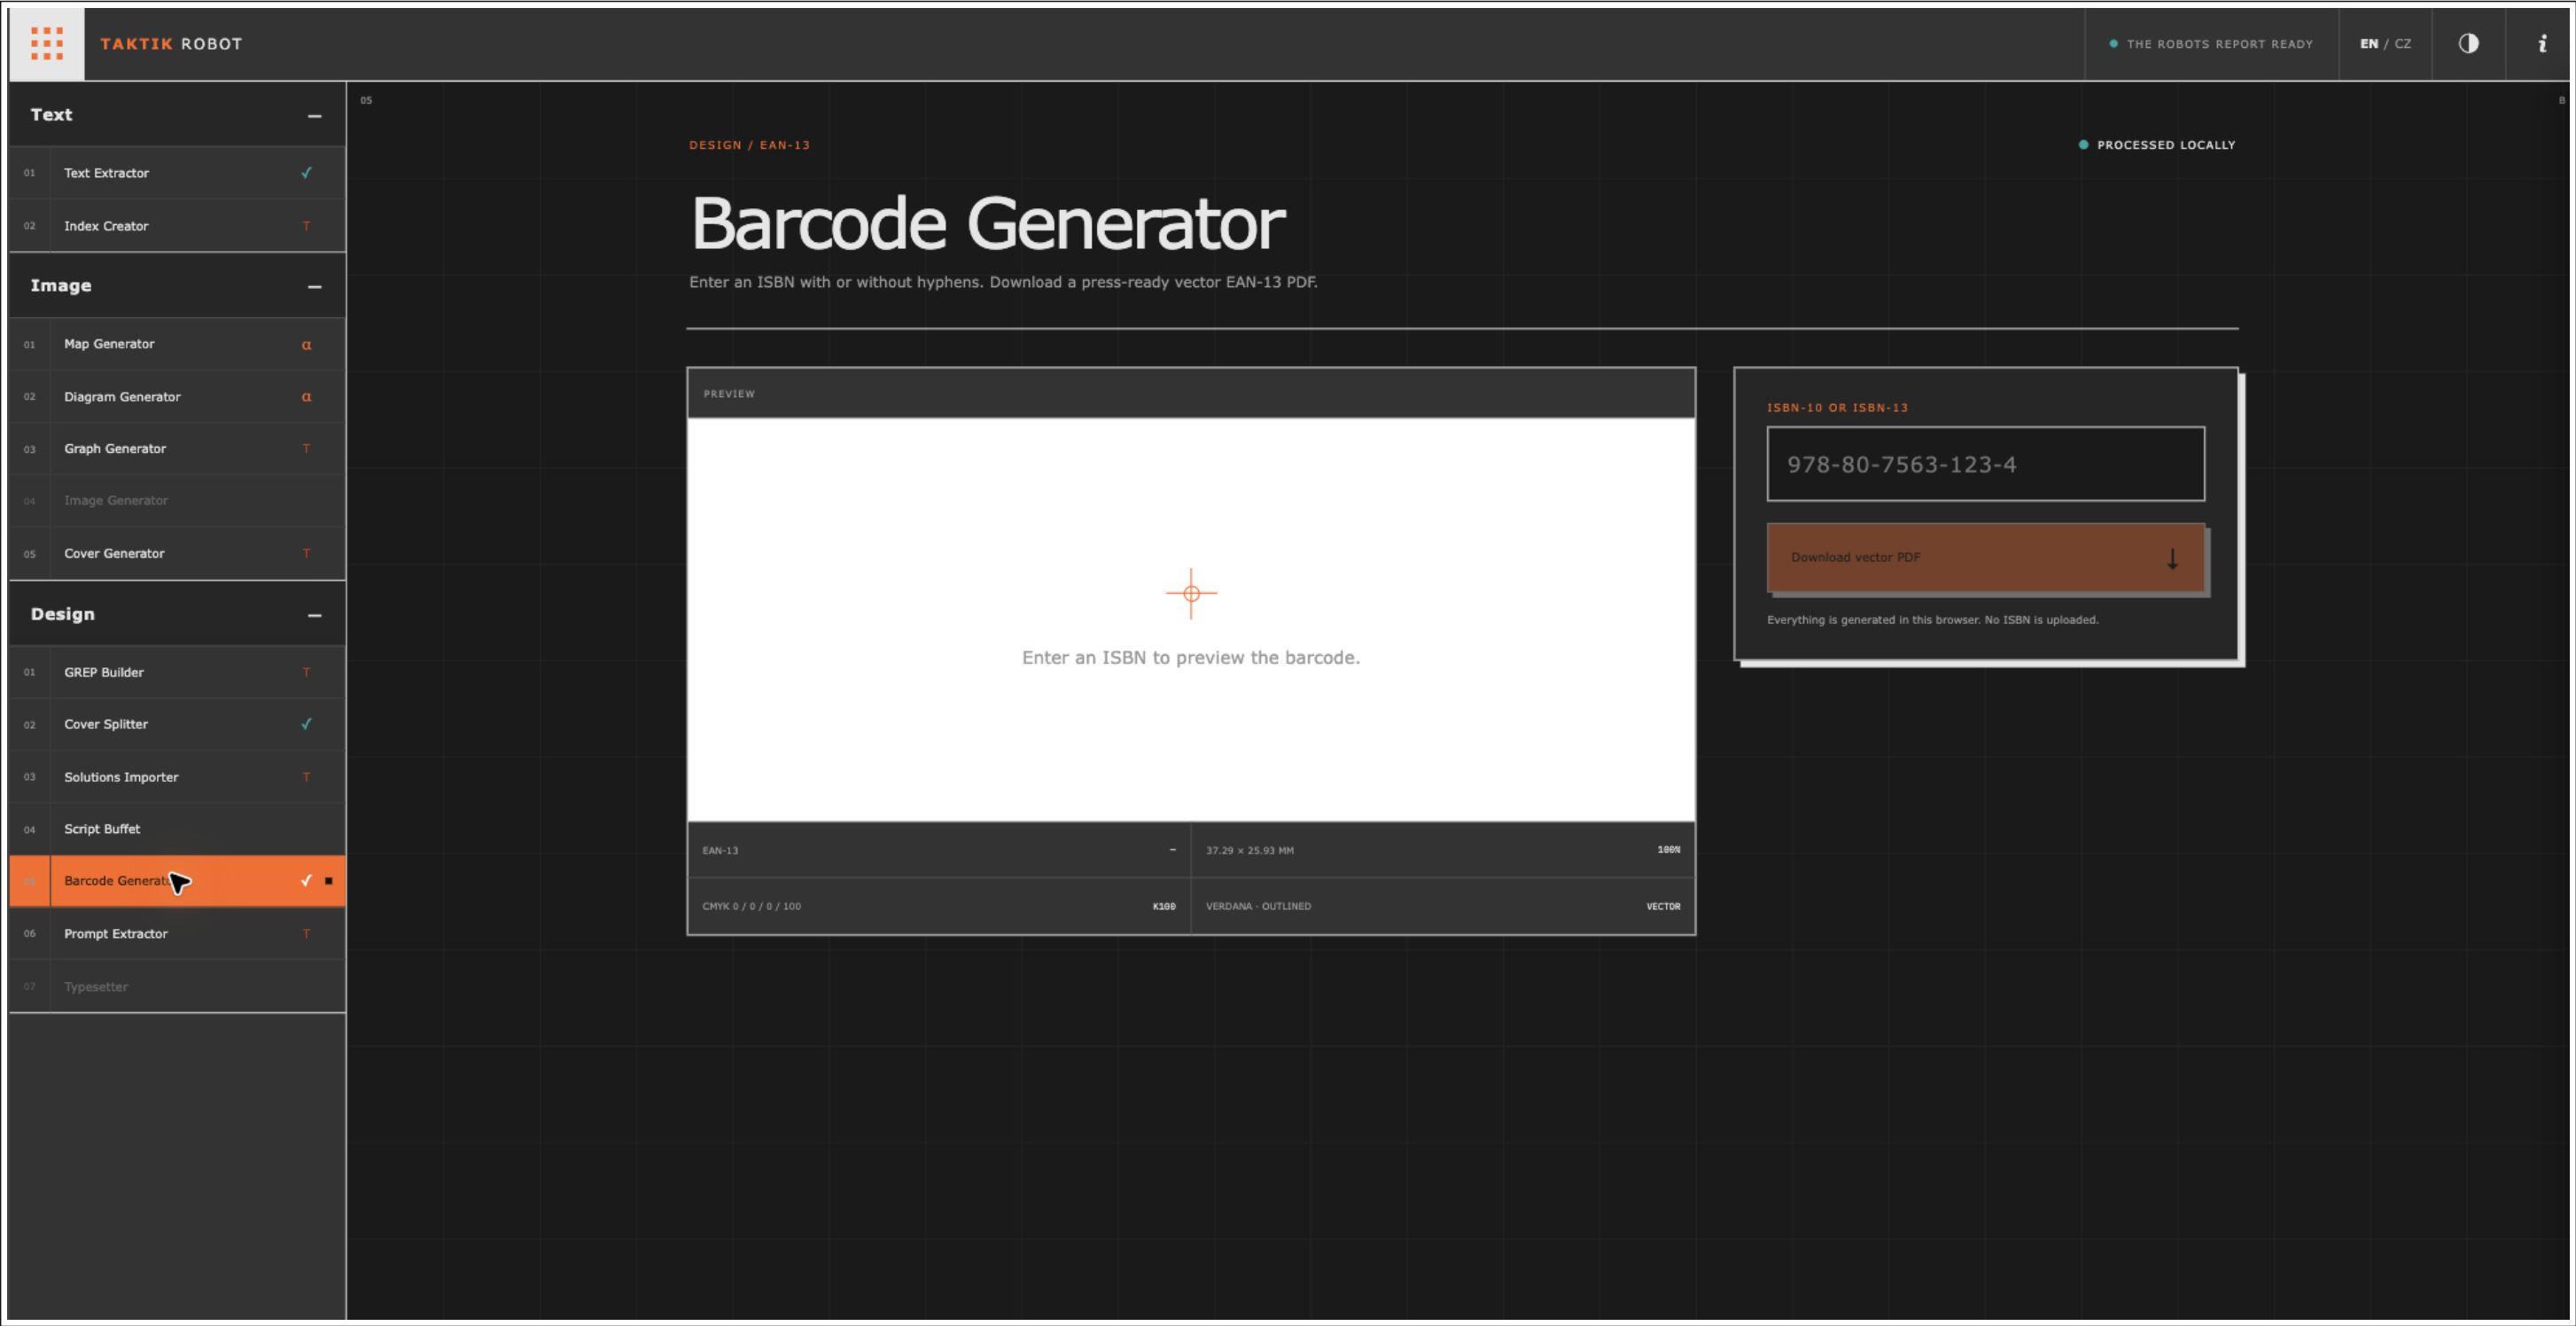

Standard workbench: viewport plus toolbar

V02 Graph Generator / main

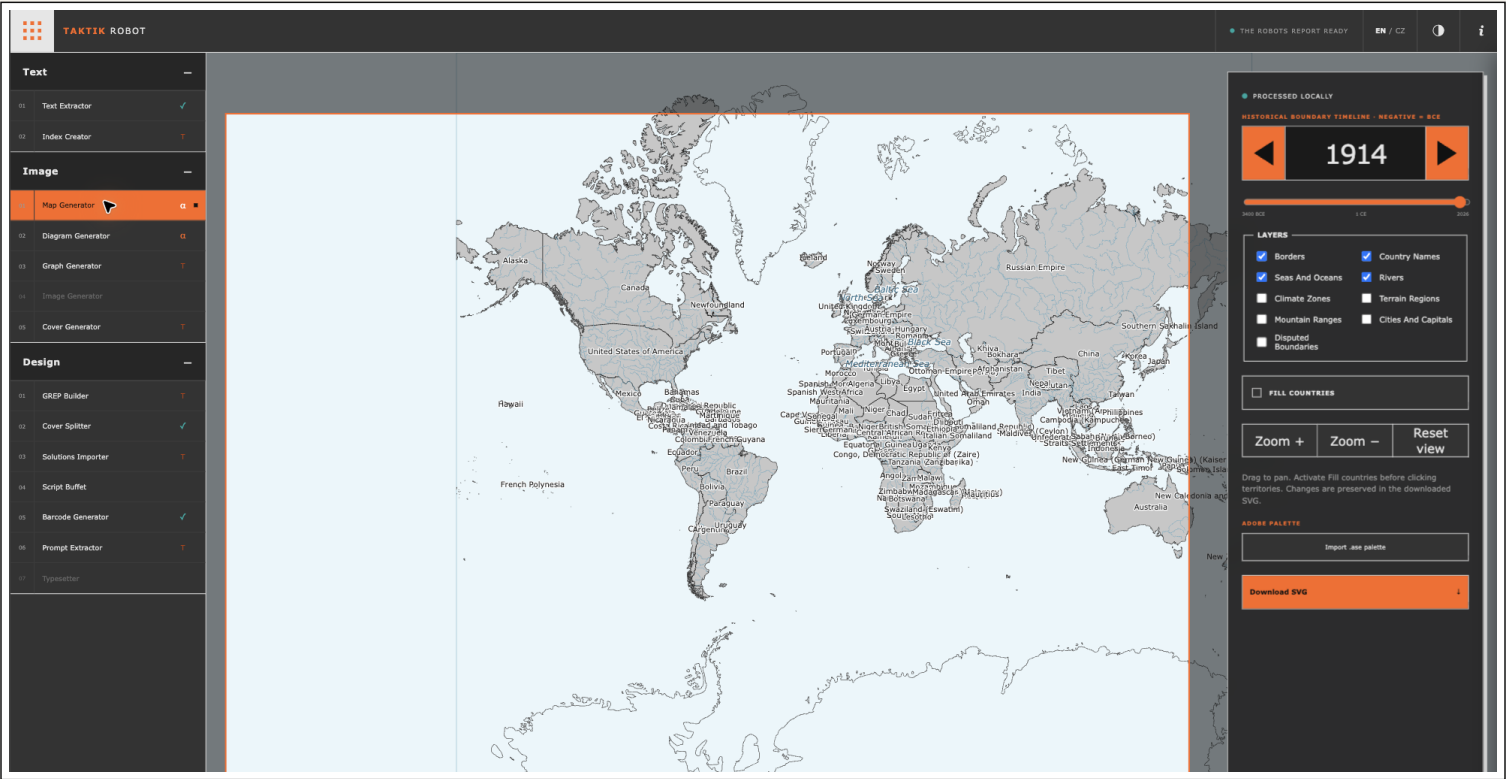

Standard workbench: viewport plus toolbar

Visual workbench

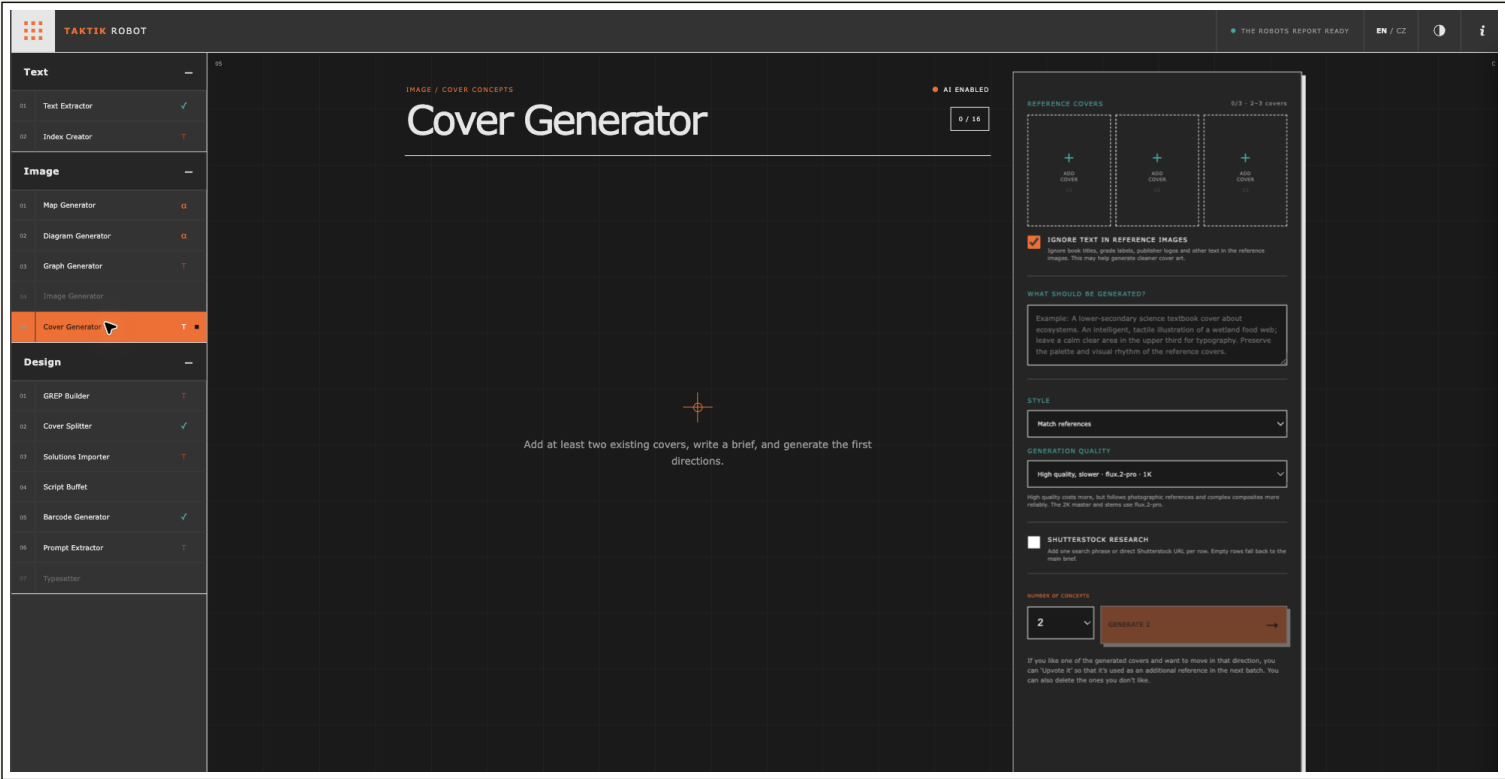

V03 Barcode Generator / main
Standard workbench adapted for direct input

Adapted and unique workspace

U01 Map Generator / adapted workbench

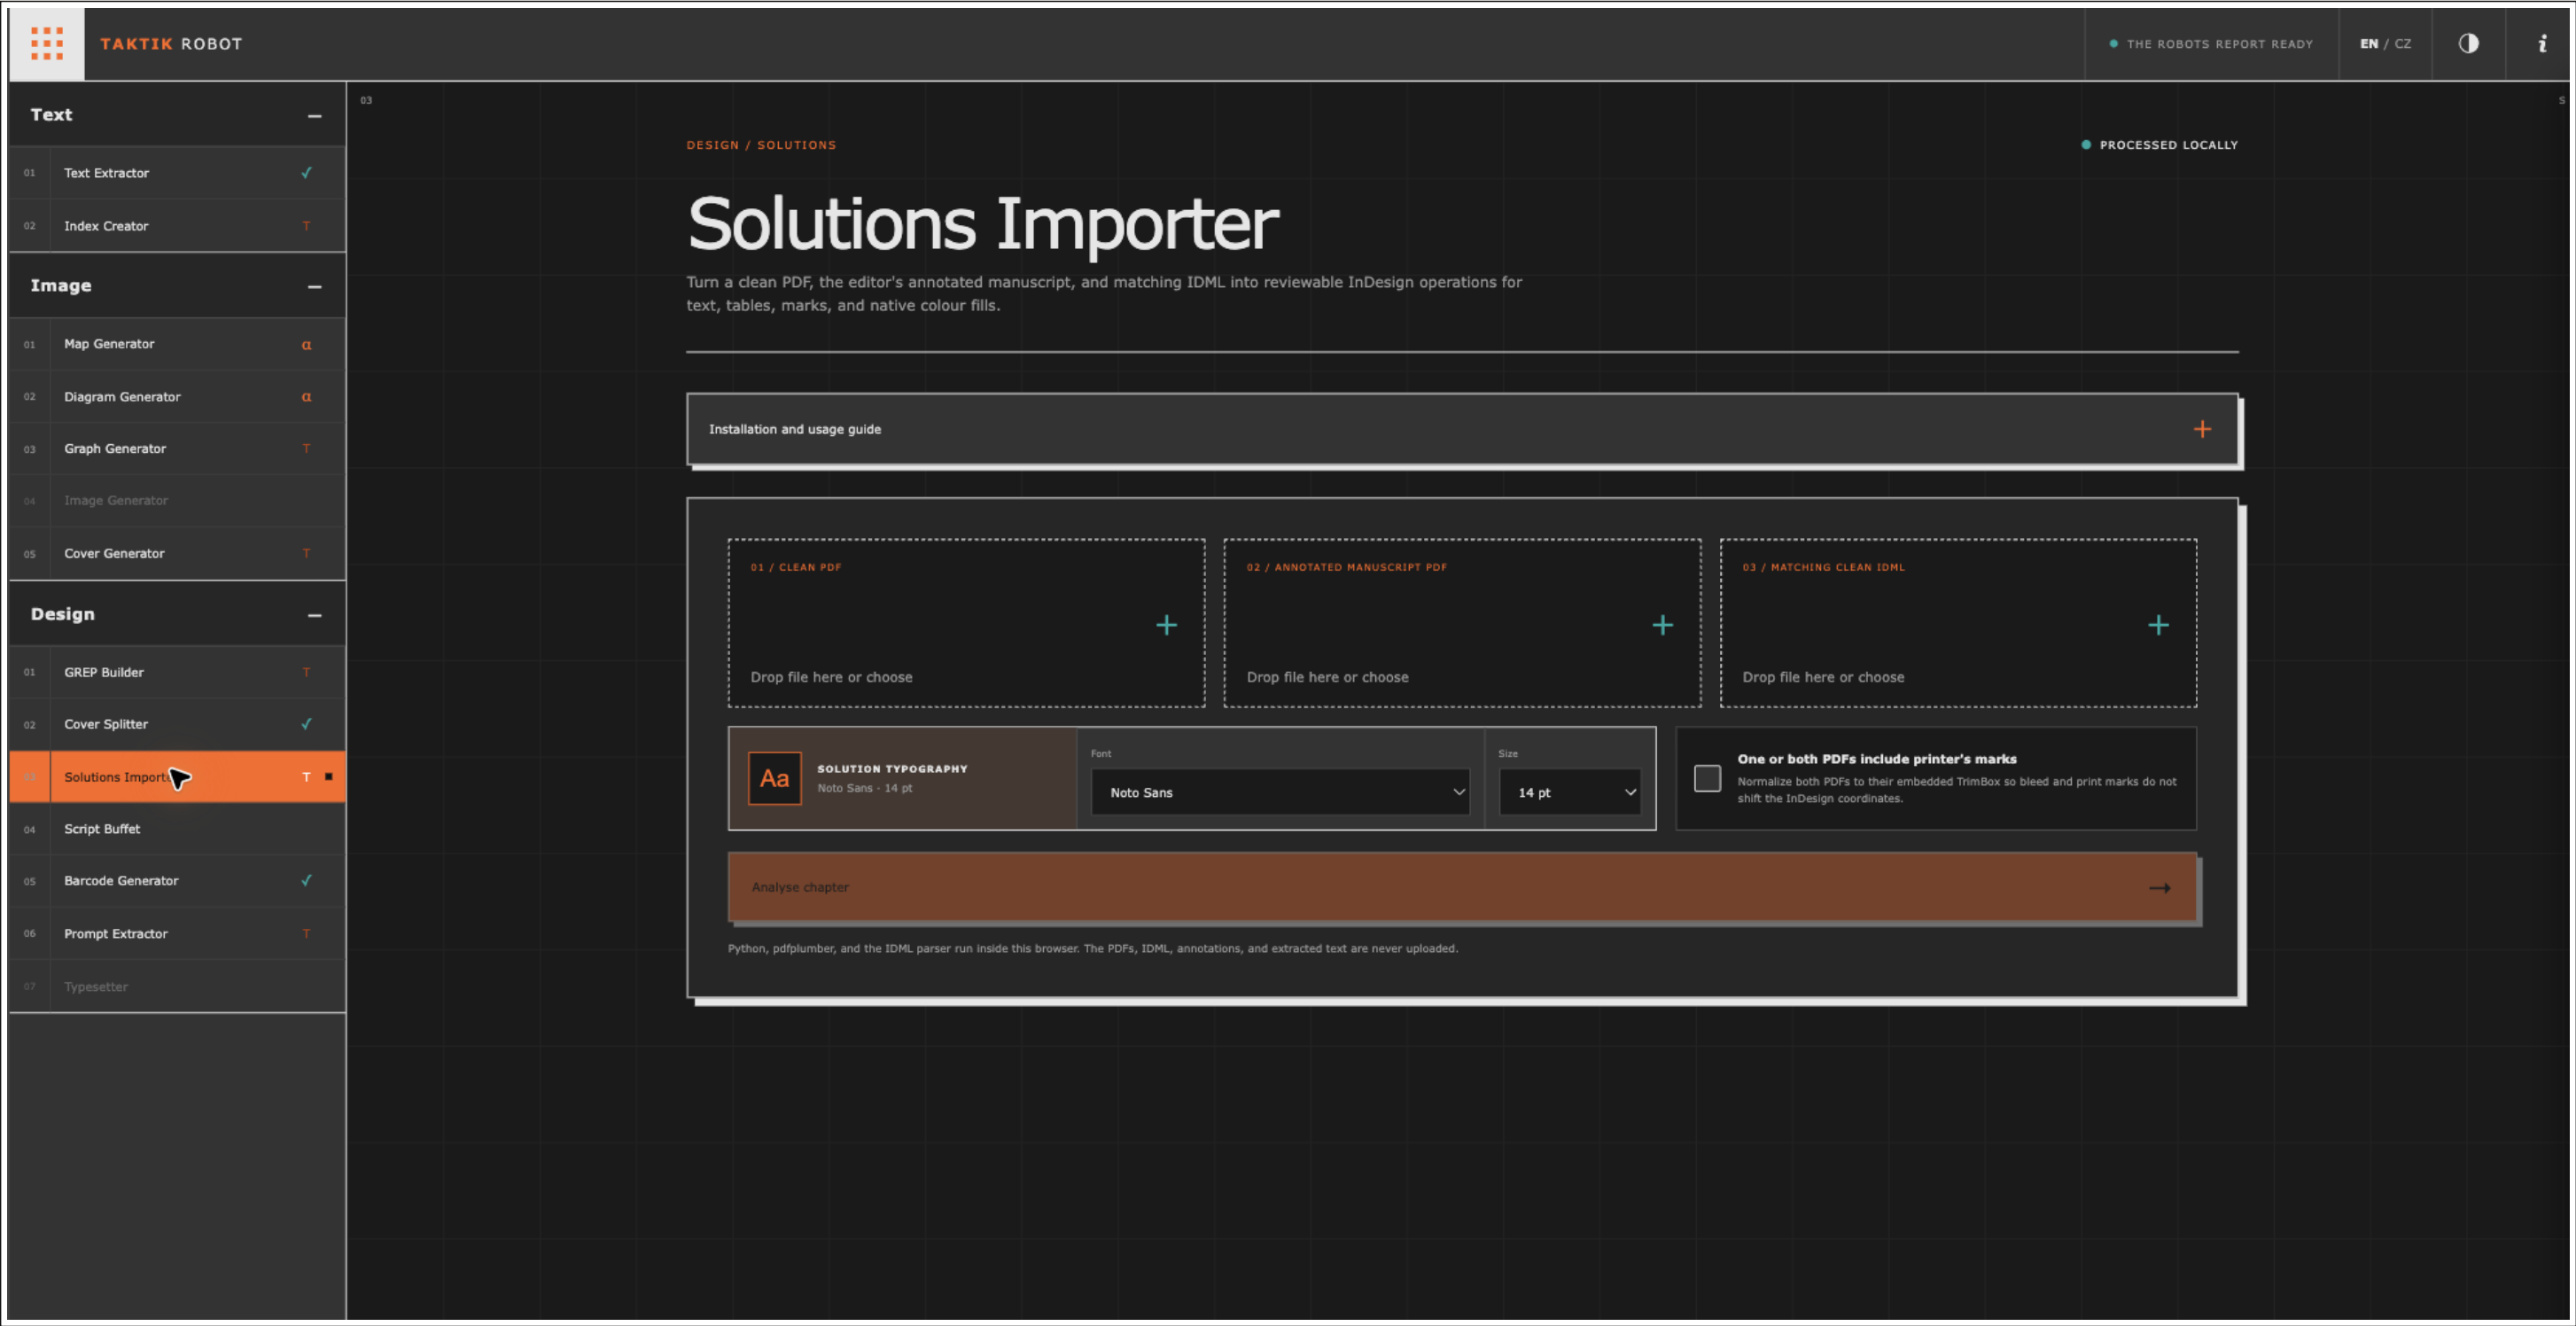

Canvas editor with a long inspector

U02 Cover Generator / adapted workbench

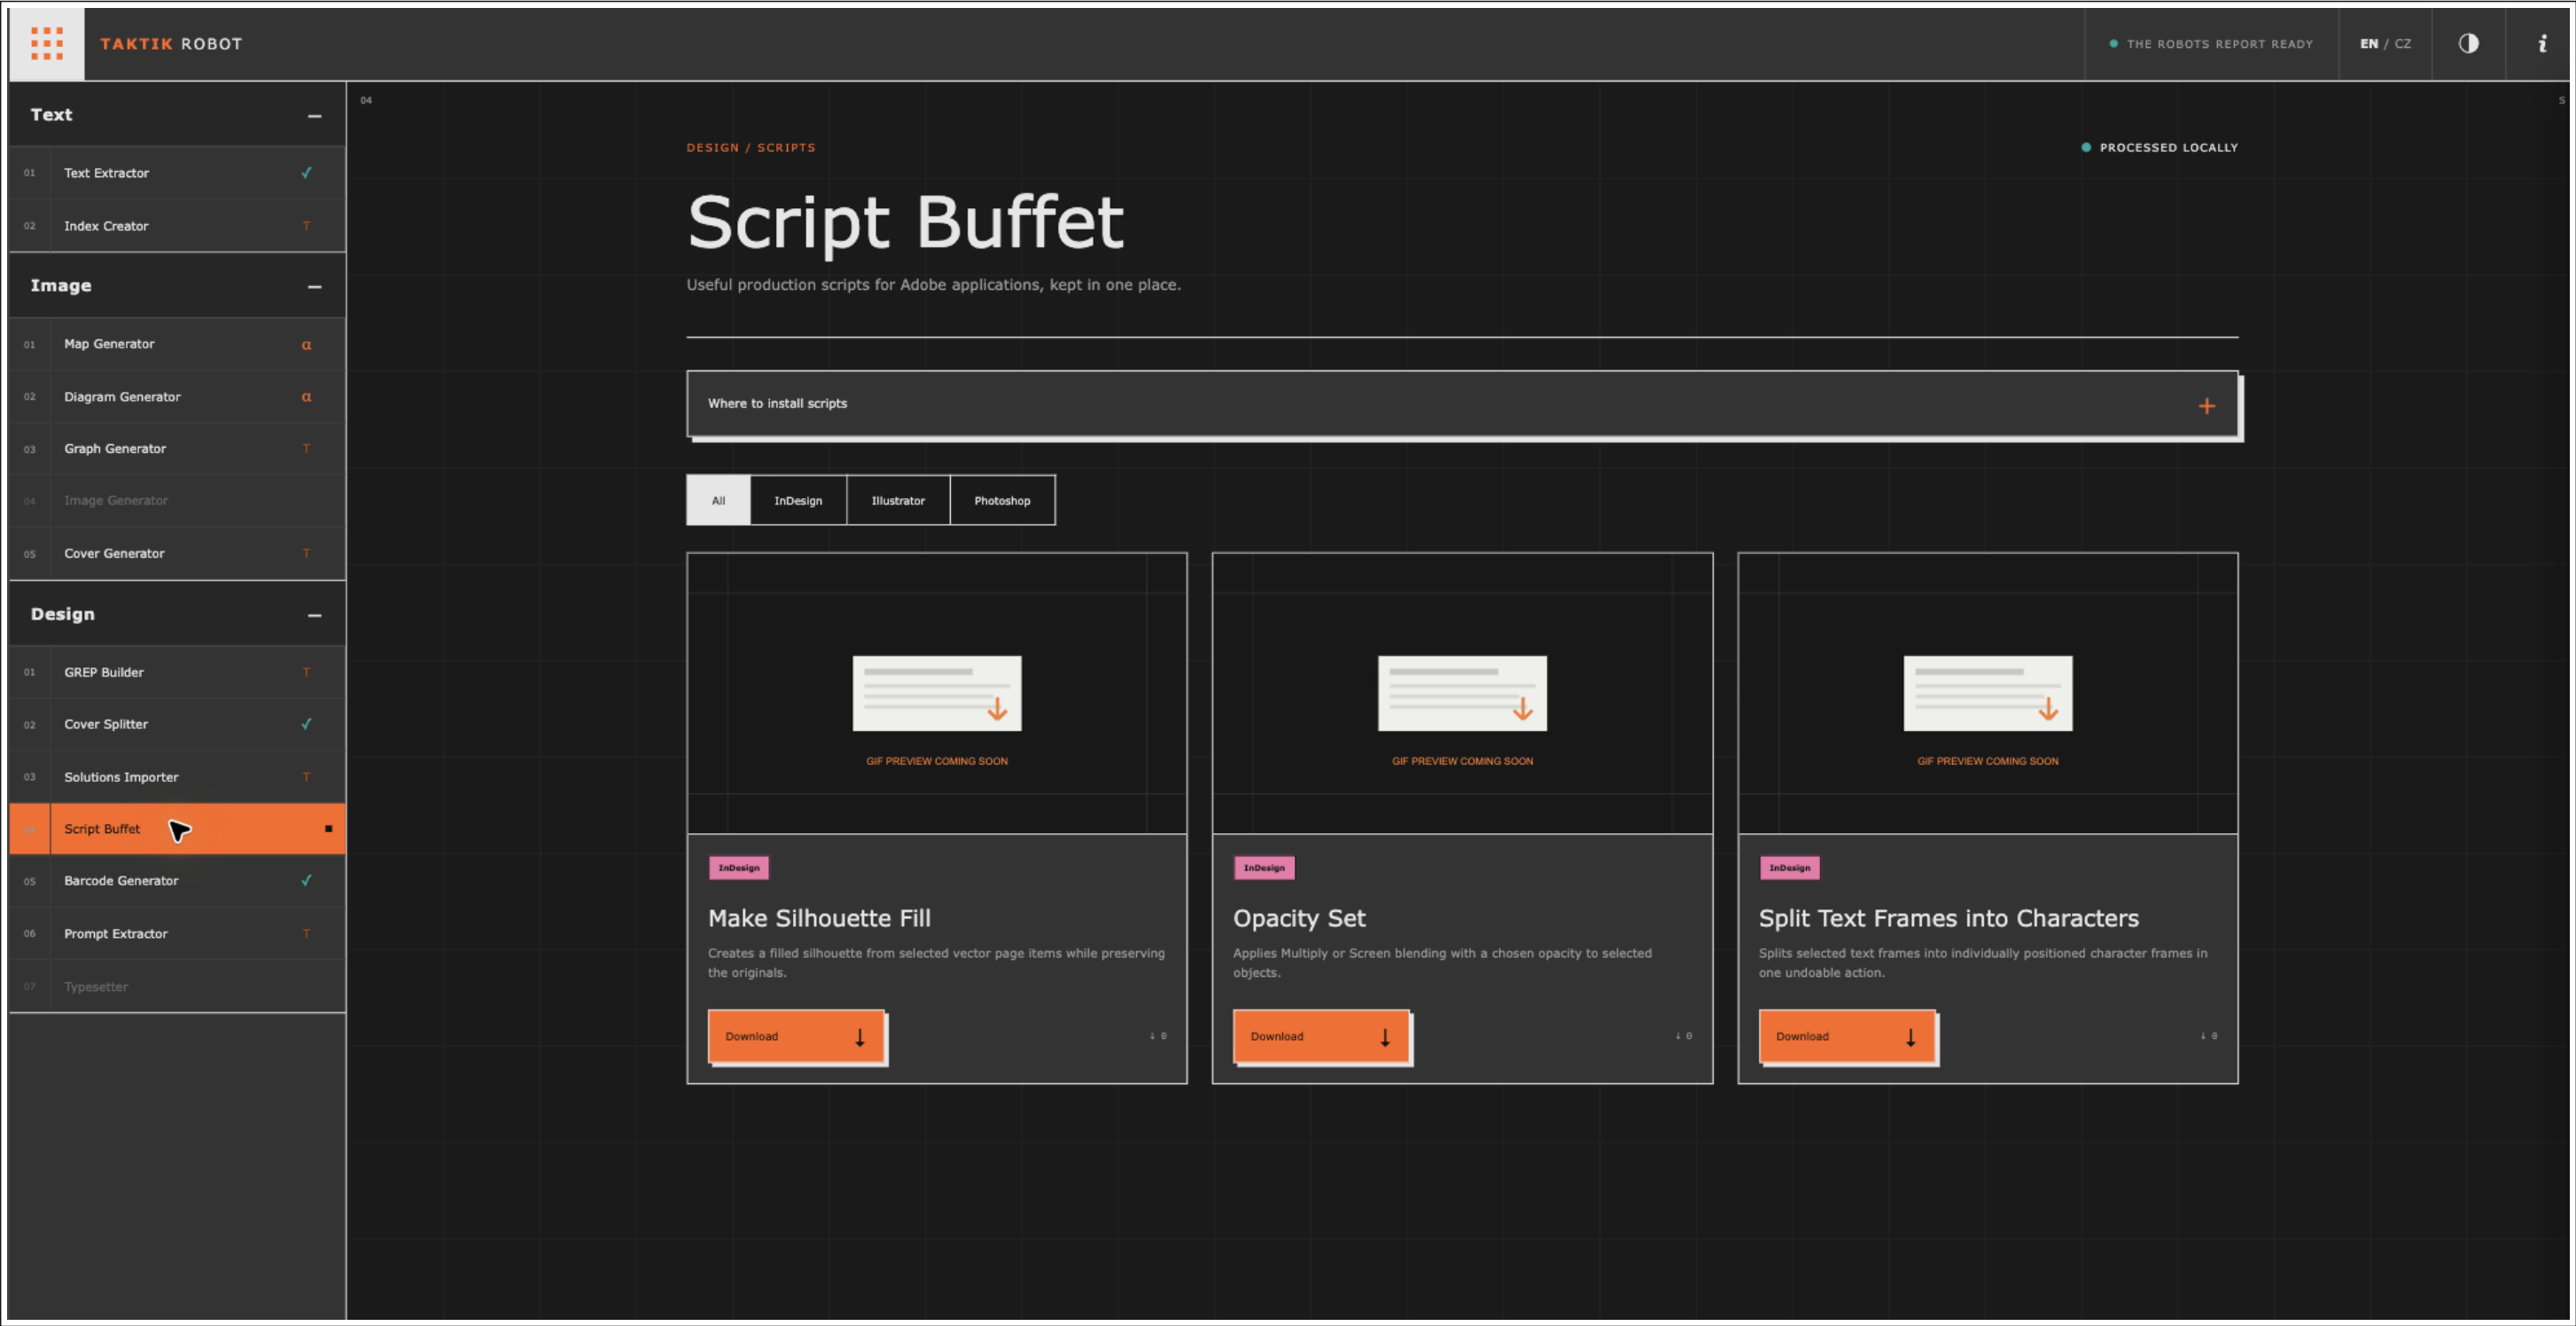

Sketch viewport with a long inspector

Adapted and unique workspace

U03 Solutions Importer / unique workflow

Task-specific multi-file workflow

L01 Script Buffet / library

Filterable asset library with download actions
